ERVIN NEMETH received a B. A. from The International University (formerly International Christian University), Vienna, Austria in 1992. He has been teaching ESL and EFL courses ever since. This book is a result of several years' research.

WARNING!

Certain vulgar expressions and curses can get you killed if you happen to use them at the wrong place or wrong time. For your own safety, don't try them on native speakers when you first travel to the US.

Now the small prints:

Use this book at your own discretion and risk. No guarantees offered, no responsibility is taken by the author. You may choose to throw it away right now to avoid calamities and to live a happier but less colorful life.

Some of the harm and side-effects that you are likely to experience:

- You (tourists) might get killed by a person who misunderstands your honest experimentation with foul language. (this is not a joke!)
- You (girls) may get beaten up by your parents who find you practicing some of the terms (especially **fucking** with the neighbor's son or giving the repairman a decent **blow job**).
- You (boys) can abrade the skin on your hands and **dicks** by masturbating for every new term you learn.
- You (coed college students) will certainly sneak in to the boys' shower to get first-hand experience with some **cocks**.

Foreword

As I was watching a movie many years ago I noticed that the characters used several vulgar expressions that are not listed in some dictionaries. English teachers usually ignore their presence in everyday language, but they exist and are used extensively.

Here are some of the sentences I put down while watching the movie:

- Would you get up from your **butt!**
- Holy **shit**, you are really real!
- Tod and Mada are **dick**, but I want to call them anyway.
- Why the **hell** did you do that?
- Take a hide **Bozo**.
- **Fuck** you, you **dip shit!**
- You **son of a bitch**, you shot me!
- Drop the **shit!**
- What the **fuck** is it?
- What the **fuck** is going on?

English Reader, Unofficial English

- **Dick** what?
- You're pretty famous in all over the **goddamn** TV.
- How about the filling from my **fucking** teeth?
- Nobody **fucking** move!
- It's all your **fucking** fault!
- They mother **fuckers**!
- Get the **hell** out o' here!

(Terminator 2)

In another movie a rough speaking Texan couple visited a middle class northern family that had a little boy – about fourth grader. The family obviously tried to exclude vulgar expressions and cursing from the little boy's vocabulary. When the Texan lady exclaimed, "**Oh shit! Goddamn son of a bitch!**" the response of the little boy was: "Wow, she said the **S-word**, **G-word** and the **B-word**."

Some call the above renaming ridiculous since "everyone knows" exactly what the "**B-word**," "**F-word**," "**G-word**," "**S-word**," etc. are. But do they? How are foreign learners supposed to know them?

English Reader, Unofficial English

“They are doing the national anthem. Dad, what are you doing? You’ve got to stand up because this is the **fucking** national anthem. That’s why. Show some respect. This is **fuck** dad.”

“Hey, **dip shit**, you wanna get the thumb out of my brew? Dad thinks you’re quick. We’ll do these now and I’ll go pick up some more between innings. Come on, chug the **fucking** mug. Here’s the exception. See who we’ve got pitching today? He can throw the ball **fucking** fire.”

English Reader, Unofficial English

The point is, no matter how keen some people are in avoiding bad language, it's used all the time by contemporary writers, broadcasters, lyricists and people in the streets of English speaking countries. Thus you should at least passively know quite a few of these terms if you want to know the language better.

Of course language changes continuously, so some of the terms can sound rather old-fashioned. Still, it's good to look at them – just in case...

You might want to keep a vocabulary notebook and enter everything that comes to your attention. Use the Internet to figure out the meaning of those terms. There's no better place for research than an international chat room. Many users are more sophisticated than you may be right now. But hopefully you will be able to impress some after reading this book.

You may even want to draw some pictures. Just be sure that your Mom wouldn't find the notebook while cleaning up the mess after you. 😊

In this book you will read most extensively about the word **fuck** as it is the one that occurs most often. However, some other terms will also be discussed.

English Reader, Unofficial English

To make it more enjoyable, there will be jokes and clip arts added but not very explicit illustrations, I'm afraid. After all, this is intended to be a sort of language book and **not pornography**.

Now, as the book is almost completed, I can see that there will be sections that I hoped to include but could not. I hope that this book will be a starter for you and you will google some unexplained terms and collect a lot of additional materials. Maybe you can find good advice for the kids on the following page who have no idea about what sex might be. (I don't think I had a chance to clarify that in this book, I'm afraid.)

Good luck, and enjoy the rest of the book!

Describing Situations with Fuck A-Z:

As you can see, **fuck** is absolutely versatile. Aside from its sexual connotations, you can use this incredible word to describe many common situations.

Advice:

Fuck you, you dip shit.

Asking for silence:

Shut the **fuck** up!

Aggression:

FUCK YOU!

Analyzing the process:

Proper **fucking** should start with a blow job. Then he **fucks** my tits. Next he eats my pussy. And if the poor thing has any more energy left, he can **fuck** my asshole.

Anatomical description:

He's a **fucking** asshole.

English Reader, Unofficial English

Xenophile:

Jack loves to spend the holidays in Africa **fucking** native black girls.

Xenophobia:

Fuck them Chinks!

Yachting:

Jill **fucked** with three guys on the deck while they sailed across the English Channel.

Yakking:

Stop all the nonsense talking about **fucking** and take off your clothes for a real fuck now.

Zoology:

Jack spent most of his life studying how animals **fuck** in captivity without ever fucking a woman.

Usage note:

Fuck can simplify hard-to-understand historical texts. One **before** and **after** example:

- **Before:**

“WHEN in the Course of human Events, it becomes necessary for one People to dissolve the Political Bands which have connected them with another, and to assume among the Powers of the Earth, the separate and equal Station to which the Laws of Nature and of Nature’s God entitle them, a decent Respect to the Opinions of Mankind requires that they should declare the causes which impel them to the Separation.”
(The Declaration of Independence)

- **After:**

Fuck Crazy
George!

Memo to all employees

It has been brought to the management's attention that some individuals have been using foul language in the course of normal conversations between employees. Due to complaints from some of the more easily offended workers this conduct will no longer be tolerated.

The management does however realize the importance of each person being able to properly express their feelings when communicating with their fellow employee. Therefore, the management has compiled the following phrases so that the proper exchange of ideas and

information can continue.

New Phrase

Old Phrase

I'm not certain that's feasible

No **fucking** way

Interesting behavior.

What the **fuck**?

Of course I'm concerned.

Ask me if I give a **shit**.

Husband comes home

A guy comes home from work, walks into his bedroom, and finds a stranger **fucking** his wife. He says, “What the hell are you two doing?” His wife turns to the stranger and says, “I told you he was stupid.”

Oral sex

Crackers: *Ew, their bedroom, their fuck chamber itself!*

Babs Johnson: *This is where they mate, Crackers, right here on this very bed, this is where they touch their uninspired little organs together, vainly trying to recharge their worn out battery of filthiness, thrashing and moaning in the still of the night!*

Crackers: *What kinda shit turns them on, Mama? What do they do in here?*

Babs Johnson: *Oh all sorts of disgusting positions I would imagine, Crackers. Connie probably **takes Raymond's little peanut of a cock between her brittle chapped lips and then scrapes her ugly decayed teeth up and down on it** while asshole Raymond thinks he's getting the best head on the East Coast! Then they probably sit here and stare at each other's blue and red hair, while they goose each other and say dirty words!*

In the news

(coming from **FOX NEWS**
this is hopefully not a joke)

Men who frequently masturbate appear to have a lower risk of developing prostate cancer, Australian researchers have reported.

Researchers from the Cancer Council of Victoria found that men who masturbated more than five times each week were a third less likely to develop the cancer.

The study surveyed 1,000 men who developed prostate cancer and 1,250 men who did not, between the ages of 20 and 50, it is reported by *PlanetOut*.

Researchers told the BBC that the prostate produces one of the fluids involved in ejaculation and that frequent masturbation appears to flush out carcinogens.

Sexual intercourse may not have the same effect because it increases the risk of contracting a sexually transmitted disease, which could raise the risk of cancer.

Female Masturbation

“Masturbatory behavior is common in infants and adolescents, and is indulged in by many adults as well. Studies indicate that 60–80% of U.S. females have masturbated at one time or another.”

get one's shit together (get organized; put things into order):

If Jack can't **get his shit together**, Jill will leave him.

shit hits the fan (when trouble starts):

When your wife finds out that you fucked Jill, the **shit will hit he fan**.

“So what you gonna do when **shit hits the fan**, are you gonna stand and fight like a man, will you be as hard as you say you are, or your gonna run and ditch your body guard.”

Jokes

A bear and a bunny are sitting in a forest taking a **shit**. The bear leans over to the bunny and says, “Do you ever have problem with **shit** sticking to your fur?” The bunny says “No.” So the bear grabs the bunny and wipes his ass.

Tom, Dick and Harry were in the pub enjoying a few quiet drinks one night, when they decided to get in on the weekly raffle. They bought five \$1 tickets each, seeing it was for charity.

American Crap

Memorize these definitions and pooping at work will become a pure pleasure.

Escapee

A fart that slips out while taking a leak at the urinal or forcing poop in a stall. This is usually accompanied by a sudden wave of panic/embarrassment. This is similar to the hot flash you receive when passing an unseen police car and speeding. If you release an escapee, do not acknowledge it. Pretend it did not happen. If you are standing next to the farter at the urinal, pretend that you did not hear it. No one likes an escapee; it is uncomfortable for all involved. Making a joke or laughing makes both parties feel uneasy.

Jailbreak (Used in conjunction with “Escapee”)

When forcing poop, several farts slip out at a machine guns pace. This is usually a side effect of diarrhea or a hangover. If this should happen do not panic, remain in the stall until everyone has left the bathroom so

Urination

*“Protestant parents still keep a Bible handy in the house, so that the children can study it, and one of the first things the little boys and girls learn is to be righteous and holy and not **piss** against the wall. They study those passages more than they study any others, except those which incite to masturbation. Those they hunt out and study in private.”*
